- Project Management
- Public Relations
- Teamwork
- Effective Communication
- Critical Thinking

TECHNICAL SKILLS

- Java
- C++
- DBMS
- React
- Spring Boot

LANGUAGES

- English: Fluent
- Tamil: Fluent

PROFILE SUMMARY

Hi, I'm Kishore J, a passionate 3rd-year B.E. Computer Science and Engineering student at Sri Krishna College of Technology (SKCT), Coimbatore. I love building interactive, visually engaging, and high-performance web applications. My interests revolve around Frontend Development, Creative UI/UX, 3D Web Experiences, and modern JavaScript frameworks.

PROJECTS

Yoga Instructor Application System

- Developed a full-stack web application that connects yoga instructors with students. The system allows users to browse instructors, check available schedules, book sessions, and manage appointments through a clean and responsive interface.
- The frontend was built using React for dynamic UI updates, while the backend was developed with Spring Boot and secured REST APIs. Integrated MySQL for data storage and implemented role-based authentication for both instructors and students.

Student Management System

- Developed a Student Management System using Spring Boot, providing RESTful APIs for managing student records and academic information. The application supports adding, updating, retrieving, and deleting student details through a structured service-layer architecture. Implemented validation, exception handling, and layered design to ensure maintainability and clean code.

INTERNSHIP

2024 - 2025

- **Codebinding -coimbatore**
webdevelopment intern for 15 days(June 1 2025 - june 15 2025)

WORKSHOP

- **Codebinding -coimbatore**
E-Commerce workshop for Two days
